

Comprehension Questions: NOTAMs & TFRs

Activity Overview:

You will answer the questions provided then participate in a class discussion.

Directions:

1. In your engineering notebook, answer the following question(s) with a minimum of three paragraphs.
2. Participate in a class discussion to share your responses.
3. Submit your responses to your instructor.

Questions:

Find the FAA NOTAM website by searching “FAA NOTAM Search” on the internet and locating a current NOTAM for your closest airport. Interpret the information from the most recent NOTAM and discuss it below. (You will need to know your Airport Identifier).

Find the FAA TFR search by searching on the internet “FAA TFR”. Select three different states, hit “go” once selected, and view the TAFs. Interpret and summarize the information below.
